

July 19, 2006

Dear Dave,

Thank you so much for orchestrating and directing the complete revival of our outdoor spaces!

Gus and I are so pleased! Our patios are completely transformed! You developed my original ideas! You guided me to choose the right paver color combination and pattern. The Country Manor Wall is both beautiful and flows pleasantly — so much more than I expected! You revised the style, color and developed the flow of the wall. The wall and patios complement each other so well! Thank you so much —

Your crew is very "skilled" and "professional".

You took care of our needs! You explored the pre-existing drainage problem — by installing drainage pipes, and saw to the removal of patios, cedar block wall and obstructing shrubs.

I strongly recommend "you" and your company and crew to anyone who desires a beautiful well-built space.
